

ALPS SWITCHES

These switches are possibly the most widely used type in UK manufactured mixers, and are stocked for use as replacement spares. There are 2 and 4 pole latching ("push on-push off") types. All are break-before-make ("non-shorting"), and are rated 30 volts DC, 0.1 amp. Shaft size 3.3 x3.3mm. Suitable buttons also stocked – see index "Switch buttons".

Canford code	Type	Alps code	Overall length
58-231	2-pole latching	SPUN19035A	42.0mm
58-232	4-pole latching	SPUN19036A	51.5mm

58-231 ALPS SPUN19035A SWITCH 3.3mm square shaft, latching, 2 pole

58-232 ALPS SPUN19036A SWITCH 3.3mm square shaft, latching, 4 pole
