Release Description

When the sun rises on the horizon and shines over the water until the first heat reaches the land and brings light over Woerden, a place in the green heart of the Netherlands where our next talented artist SB-SIX comes from.

A merciless producer when it comes to Deep Tech House with a nice balance to almost Ambient layered pads and deep bass lines. Batavia Records is very happy with SB-SIX first Ep after his first release on 'Batavia's Treasure, Vol.4' series with his track 'Emeral Sands' which can also be heard on this Ep.

With no less than five tracks you can almost speak of a mini album by SB-SIX with amazing Deep House tracks such as the main track 'Meadows'. This track is like the silence after the roar of the ship's guns to which the fog is rising and gradually the image reveals itself. The tracks 'Stars', 'Anticipation' and 'No More' have the same beauty in sound and merge nicely in the composition. This requires talent. SB-SIX clearly shows that it is one of the discoveries during our musical travels around the world.

Ahoy Enjoy!

"A BIG PHAT TEN FROM ME! Yes, in CAPITALS! This 'mini album' holds several genres, from pop to dub techno, and is really a big one. SB-SIX has surprised me with this release (even though I already knew him). Every track has its own charm, and warmth, vocals, deepness... when you put this on, noone gets skipped, everyone feels at home, right away. GOOSEBUMPS!"
